

Contents (for Application Oriented Projects)

Contents (for Application Oriented Projects)

1. Introduction	00
1.1 Project Description (2-4 Pages)	00
1.2 Company Profile (1-2-3 Pages)	00
2. Literature Survey	00
2.1 Existing And Proposed System (2-3 Pages)	00
2.2 Feasibility Study (2-3 Pages)	00
2.3 Tools And Technologies Used (2-4 Pages)	00
2.4 Hardware And Software Requirements (1 Page)	00
3. Software Requirements Specification	00
3.1 Users (2-3 Pages)	00
3.2 Functional Requirements (2-3 Pages)	00
3.3 Non-functional Requirements (2-3 Pages)	00
4. System Design (high Level or Architectural Design)	00
4.1 System Perspective (1-2 Pages)	00
4.2 Context Diagram (1-2 Pages)	00
5. Detailed Design (various Design Diagrams According to Project)	00
5.1 Use Case Diagram (4-6 Pages)	00
5.2 Sequence Diagrams (4-6 Pages)	00
5.3 Collaboration Diagrams (3-5 Pages)	00
5.4 Activity Diagram (4-6 Pages)	00
5.5 Database Design (er and/or Conceptual Schema) (3-4 Pages)	00
6. Implementation (no Full Code, Code Snippet May Be Included)	00
6.1 Screen Shots (15-20 Pages)	00
7. Software Testing (test Cases Etc.) (6-8 Pages)	00
8. Conclusion (1 Page)	00
9. Future Enhancements (1 Page)	00
Appendix A	Bibliography (1 Page) 00
Appendix B	User Manual (2-10 Pages) 00

Note: For research oriented or other type of project's table of content structure may be altered as per need.
